IN THIS ISSUE: THE STORY OF THE RED CROSS

CANADIAN TROOPS TAKE UP POSITION IN ICELAND

CANADIAN SOLDIERS are charged with the job of guarding Iceland and here are some of the Canucks camped along one of the main highways near Reykjavik, the island's capital. Iceland

might have proved a valuable stepping stone to North America for the Germans had not Britain acted swiftly and taken the Danish-owned country under her wing following the fall of Denmark

ICELAND IN SUMMER is not as cold as its name sounds, for these Canadian soldiers have doffed their tunics while bivouacking during exercises in the field

ENGLISH SCHOOLCHILDREN saved their pennies to send cigarettes to Canadian soldiers in Iceland and here is a C.A.S.F. officer with a consignment of "fags" that awaited the Canucks on their arrival

WITH CANUCK 110TH SQUADRON OVERSEAS

BECAUSE THEY CAN STAND THE GAFF of makeshift "fields" behind the lines, Westland Lysander army co-operation planes are used by the 110th Air Squadron

ROYAL CANADIAN AIR FORCE now comprises 1,765 officers and 17,688 airmen, and reports of its successes against the Germans are daily becoming more frequent. First of its members to take the air against the enemy was Squadron Leader Ernest McNab of Regina.

"Gaining battle experience" with a Royal Air Force fighter formation, he shot down a German Dornier bomber on Aug. 15. All parts of Canada contributed the more than 400 men, including 30 pilots, making up the 110th (City of Toronto) Army Co-operation Squadron now in England. It was the first R.C.A.F. unit to go on active service overseas.

Under modern technique it operates in close co-operation with the army. Its job is to sight artillery targets, report on gunfire and cover enemy movements. It also does reconnaissance work in alliance with army artillery. Each plane in the squadron is a flying radio station, keeping in touch with a mobile sending and receiving station in a truck on the ground. Lysander planes are used and their cargo includes radio equipment, pilot-observer and air gunner. They carry guns in the cockpit and in the streamlined "pods" on the wheels. Landings and take-offs are often hazardous, being confined to bits of straight road and patches of open country. If the radio fails the semaphorist is called into action or ground messages are snared by means of a hook on the end of a wire. Reports from the plane are interpreted in terms of gun elevation and direction by artillerymen on the ground.

AT THE HEAD of the 110th's 400 men is Wing Commander W. V. VanVliet, Winnipeg

WORKING WITH THE ARMY

SKILFUL PILOTS of the 110th Squadron are trained to swoop within a few feet of the ground and pick up messages in bags slung on string between two five-foot posts. To snare the bags the plane

lets down a hook on a wire... At such low altitude instruments are insufficiently sensitive and the pilot must get his bearings by looking over the side of the cockpit. Misses are rare

CO-OPERATION with the army demands familiarity with every inch of surrounding territory. These pilots are studying maps

CONSTANT COMMUNICATION with planes in the air is maintained by two-way wireless. This shows mobile ground station

THIS IS THE WAY the air force co-operates with the army. The artillery officer commanding the guns on the left is conferring with the R.C.A.F. officers in the foreground. Out of sight, planes over the target report by wireless to the R.C.A.F. station in the

truck on the right. These reports are interpreted in terms of gun elevation and direction by the men at the artillery table in the centre. With the aid of a megaphone the army sergeant is instructing the gun crew how to lay the guns

CANADIAN "EYES OF THE ARMY"

SQUADRON LEADER BERT EVANS flies even during his time off. He is in the cockpit of a general-purpose Hawker Hind plane

AIR GUNNER D. MACMILLAN of Winnipeg has the rank of A/C 1 (first-class aircraftman) in training. Hopes to be N.C.O.

ALSO FROM WINNIPEG is Flying Officer Ian D. Watson. He is a pilot-observer in the air and can operate radio and guns

ALL SET TO GO! This pilot wears parachute, regulation flying suit and helmet equipped for conversation with observer

PERFECTION IN PLANES

MECHANICAL PERFECTION is essential in the planes of these intrepid young Canadians, who risk their lives daily in aerial work. For this reason every plane in the air needs at least six men on the ground. Maintenance men include fitters,

riggers, armorers, clerks, wireless and instrument experts. Every machine is overhauled after 30 hours of flying and again at 60 hours. At 180 hours the planes are completely dismantled and reconditioned. Each plane's history is charted

A MOBILE TEA TRUCK is an important part of the 110th's equipment. After army co-operation manoeuvres the men relax in happy groups with hot drinks to refresh them

TO "SWING OVER" the engine of a Lysander a mobile electric starter is used. With the ignition switch off, gas is sucked into the cylinders. Then "contact" is made and the blades whirl

110TH RELAXES

PACKAGES FROM HOME are welcomed by the 110th. Ross Harling, Winnipeg, is taking on a load of mail for men on manoeuvres

SOFTBALL AND VOLLEYBALL are favorites among the airmen. Wednesday and Saturday afternoons are devoted to sports of all kinds

CANADIAN AIRMEN find it a pleasant novelty to be paid in English funds. They also find it disappears as quickly as Canadian money

GREEKS AND TURKS MENACED BY AXIS AGGRESSION

Photo by Associated Screen News

GREECE SAYS SHE WILL resist any Italian attack, and the eyes of 6,500,000 inhabitants are turned towards the Albanian frontier where the greatest danger lies. Here is a view of Athens and its Acropolis

TURKEY'S 16,000,000 are rushing military preparations, and more than 1,000,000 men have had army training. This young airman is typical of those being recruited. Turkey's aim is an air force of 1,000 planes

MUSSOLINI'S DREAM of a Mediterranean empire has brought a new threat to the independence of Greece, although Great Britain has guaranteed protection. Turkey may also be involved as she has promised aid to Greece if Italy attacks. Taking advantage of Britain's preoccupation with Germany, Italy accused Greece of complicity in the hatchet-murder of Daoud Haggia, so-called Albanian patriot. A Greek warship was sunk by an unknown submarine and two destroyers were bombed "in error" by Italian planes. Using Albania as a front, Italy would like Epirus, Salonika, Corfu and Crete. Restoration to Bulgaria of a corridor to Aegean Sea would separate Greece from Turkey

when your skin meets its Woodbury Powder Shade

Test all 8 Shades on your Face!

Send for them—free. Try them in different lights. One of these Woodbury shades will give your beauty new allure.

Margaret Young, former student of the University of Southern California, a blonde, says: "The powder I'd been using didn't do a thing for me. So I sent for the 8 Woodbury shades. 'Windsor Rose' was a 'love match'! It made my skin look much more vivid and alive!"

Ruth Lynett, graduate of the University of Wisconsin, a handsome brunette, says: "You see? We're so different! Yet we've each found a Woodbury Powder shade that's perfect for our skin. Brunette's is my complexion's buddy for life. It keeps me finished and flattered in any setting—wind, sun or stars!"

"Woodbury stays on so well, too," adds Margaret Young. "Even when I play tennis! My skin hasn't a trace of shine after six hot sets." "Right!" echoes Ruth Lynett. "Woodbury stays—day in, night out." Yet Woodbury's lasting, germ-free purity guards against unattractive shiny nose!

flatter ends

Girls bless the day when old-fashioned bloomers gave way to neat, trim shorts. No more hampering bulk and bunchiness... skillful designing provides for greater freedom!

For girls today want just that... greater freedom... greater comfort! And that's why you'll find Kotex sanitary napkins preferred to all other brands! Because Kotex is *less bulky* than pads made with loose, wadded filler.

Made in *folds* (with more absorbent material where needed... less where it isn't), Kotex fits better... doesn't chafe!

When you want to look swish—wear a sleek, slinky evening dress that flatters the figure. But beware of stubby-end napkins... they're bound to make "tell-tale" outlines! With Kotex your secret is safe! For Kotex has *flat*, form-fitting ends that never give you away.

What's more—Kotex has a new, *improved* moisture-resistant "safety-panel" that gives you *extra* protection!

3 Cheers—Kotex* comes in 3 sizes... Super—Regular—and Junior. (With Kotex you may vary the size pad to suit different days' needs.)

All 3 sizes offer you the comfort of softness without bulk... the confidence of flat, pressed ends... the protection of moisture-resistant "safety panels". And all 3 sell for the same low price!

NEWFOUNDLAND AT WAR

NEWFOUNDLAND'S war effort has to date resulted in more than 6,000 men going to the defence of Britain. With a population of 280,000, she has 1,300 men in the Newfoundland Heavy Artillery, 2,000 husky woodsmen doing forestry work in England and Scotland, and 2,000 fishermen engaged in the dangerous duty of minesweeping. In addition, Newfoundland has floated a war loan of some \$1,500,000. Her \$16,000,000 airport is one of the most up-to-date in the world and is admirably suited as a site for a United States base for western hemisphere defence. Tenth largest island in the world, Newfoundland's position at the gateway of the St. Lawrence is most strategic.

Should you be on the lookout for Diabetes?

symptoms appear. Thus, you can be guided to prompt control of the disease with diet and insulin before it has made much progress.

The most common signs of diabetes, frequently not recognized by those who have the disease in early stages, are: excessive thirst; excessive appetite; loss of weight; constant weariness and unaccountable irritability; and, in older people, boils and carbuncles.

■ Naturally, definite symptoms should call for immediate medical attention.

It is encouraging to realize that a healthy, active life is not only possible but probable for most diabetics who promptly discover their ailment and follow competent medical guidance. They easily become adjusted to the four vital conditions necessary for diabetes control: 1. Proper diet, 2. Insulin as prescribed, 3. Exercise, 4. Cleanliness.

For further helpful information concerning this disease and its control, send for the Metropolitan's free booklet "Diabetes."

SOME FOLKS should be especially on their guard against diabetes, as a tendency to this disease seems to run in certain families.

■ Furthermore, the people it strikes are usually overweight and between the ages of 40 and 60. Diabetes occurs most frequently among people who lead inactive lives, and is more common among women than among men.

So, if you have reason to be on the alert for diabetes, it is particularly important for you to have complete physical examinations at regular intervals.

■ Such examinations may reassure you that you do not have the disease. If the possibility of diabetes is indicated, then a study of sugar in the blood can help the doctor detect the condition early—frequently before other

Hungry for Real Baked Beans?

57

Have you tasted all four kinds? ① Heinz Oven-Baked Beans, Boston-style, with pork and molasses. ② Heinz Oven-Baked Beans with pork and tomato sauce. ③ Heinz Oven-Baked Beans, Vegetarian-style, with tomato sauce. ④ Heinz Oven-Baked Red Kidney Beans with pork and a spicy, brown-sugar sauce.

Heinz Oven-Baked Beans Are The Real Thing. They Taste Just Like Homemade Beans, Because They're Really Baked In Hot, Dry Ovens To Mealy, Munchy Goodness. Four Delicious Kinds—Steeped In Rich, Luscious Sauces—All Ready To Eat.

Heinz **OVEN-BAKED** Beans

HAVE you ever stepped into an old-fashioned kitchen when beans were baking in the oven? Man, oh! man—how good they smelled. The whole room was filled with a heavy, warm fragrance . . . Pungence of dark, bubbling molasses and spice . . . Hearty richness of slow-roasting pork, merging with the aroma of well-browned beans, as the juices sizzled softly and crusted the sides of the fat, brown crock! That's the kind of beans we're remembering when we say that Heinz Beans taste just like the home-baked kind. If you are hungry for real baked beans just heat a tin of Heinz Oven-Baked Beans. Taste them! Tender, mealy, crammed with flavour. It's Heinz thorough oven baking that makes them so appetizing and digestible, so different and downright delicious. Here's one thrifty, nourishing main dish that the whole family will go for. Just as they are, or in dozens of delicious combinations, Heinz Beans are real oven-baked best at their mouth-watering best.

FREE BABY BOOKLET VALUABLE TO MOTHERS

Marking a new advancement in infant care comes the report from clinics and laboratories that six-week-old infants are successfully digesting homogenized vegetables and fruits. The value of these homogenized vegetables and fruits as protection against nutritional anemia is clearly indicated in recommendations by many doctors that they be regularly included in diets of three-months-old babies. A brief summary of the development of homogenization, how it reduces vegetables and fruits to a form so smooth and fine that they can be easily digested by babies—it contained in a free, illustrated booklet, entitled "Your Baby's First Vegetables and Fruits." Write for this FREE booklet today to LIBBY'S, Chatham, Ontario.

BRITAIN'S NIGHTHAWKS

A FULL MOON LOOKS DOWN on this British bomber on patrol over the North Sea. Others are fulfilling Air Minister Sir Archibald Sinclair's promise that "as the nights grow longer so will the arm of our bomber squadrons lengthen and we shall strike even deeper into the enemy's vitals"

BRITISH BOMBS are now raining with full force on German military objectives. Even the Wilhelmstrasse in Berlin has been visited. Here the crew of a bomber are returning from a successful raid on German territory

I'D LIKE TO TELL EVERY WOMAN

about
Tampax

Over the teacups, in "powder rooms" . . . wherever women chat together . . .

the good news about Tampax is spreading. That's why 250 million Tampax have been sold. That's why more women every month are saying goodbye to pads and pins and belts and bother . . . to find sweet freedom and incomparable cleanliness in Tampax, the monthly sanitary protection that is worn internally.

Perfectly by a physician, Tampax is accepted for advertising by the American Medical Association Journal. So wonderfully comfortable you actually forget its presence. You are free from worry about dress wrinkles and tell-tale "lines," because Tampax is invisible.

Now sold in 3 sizes to meet every individual need, at drug stores and notion counters. The introductory package costs 25 cents (the big economy pack saves up to 25%) or mail the coupon today for trial package.

DESTROYERS THRIVE ON DANGER

THE ROYAL NAVY is justifiably proud of its destroyers, for next to a real naval battle they love work. There are now 186 of them, taking into account the 29 lost since the war started and the 44 added to the fleet. Speedy, they are unarmored warships of 1,000 to 1,400 tons. They carry a powerful torpedo armament, medium calibre guns and a complement of about 145 men.

MOTHERS! HERE'S WHY BABY'S DELICATE SKIN NEEDS A SPECIAL BABY SOAP

ADULT'S SKIN—showing closely packed cells and more durable texture.

● Doctors will tell you that baby's skin is only half as thick as the average adult's skin. That's why you must use only the mildest, gentlest soap for baby. Never expose baby's skin to harsh or alkaline soaps which may permanently injure the sensitive underlying tissues. Choose Baby's Own . . . the soap that's blended of the purest, gentlest ingredients especially for baby's tender skin.

Look for the Baby's Own baby in the pink and blue package.

The Truth About CORNS

CORNS are caused by pressure and friction. They form a hard plug of dead cells (A) whose base presses on sensitive nerves (B). It's easy to remove corns. Just put a scientific Blue-Jay and Co. plaster over the corn. It relieves pain by removing pressure. Each plaster has a medicated formula (D) acts on the corn—gently loosens it so it can be lifted right out. Then steadily reduce the pressure and friction which cause corns, and you can be free from them for good!

Get your Blue-Jay Corn Plasters today—only 25¢ for a package of 6.

IN THE NORTH SEA a British destroyer brings its anti-aircraft pom-pom machine-gun into play. Destroyers help in patrol, convoy and rescue work and laying British and sweeping German mines

TIGHTENING THE BLOCKADE on German imports is another phase of the destroyer's job. Here tons of palm kernels are unloaded from a German ship at a London dock

*"In our medicine cabinet
—and wherever we go"*

say Mr. & Mrs. "RED" HORNER

● "Alka-Seltzer is an old friend of ours. We used to buy it in Detroit before it was ever sold in Canada," says "Red" Horner, popular captain of the Maple Leaf Hockey Team. My advice to everyone is simply this, "Buy a package of Alka-Seltzer; read the leaflet inside the carton. Not a word there is exaggeration. Alka-Seltzer more than lives up to anything claimed for it. We always have it in our medi-

cine cabinet and wherever we go. That's how we feel about it."

Alka-Seltzer tablets dissolved in water make a sparkling solution you will like. It relieves the pain of headaches and muscular aches quickly. Combats gas on stomach, cold symptoms, morning after misery. It is a laxative—thus convenient to take anytime, anywhere. 30¢ and 60¢ at all drug stores.

**BE WISE —
ALKALIZE!**

"RED" HORNER, hockey star in winter and summer, says: "I've never found in Alka-Seltzer an ideal remedy for any of the ailments that take the joy out of life. Why bother to pretend now?"
